

## **Professor Nikolai Bogduk**

Professor Bogduk is Emeritus Professor of Pain Medicine at the University of Newcastle. He retired in 2014 after 40 years as an academic and physician.

His research pursued the anatomical basis of interventional diagnostic and treatment procedures for spinal pain and headache, and the validation of those procedures in clinical trials.

In retirement he remains active as a Senior Editor of Pain Medicine, and a consultant to the Spine Intervention Society.

Otherwise he is busy in the NSW State Emergency Services and on his private conservation property.
